Summary

MERN Stack Developer with 8+ months of experience building production-grade applications. Strong in React.js, Node.js, Express.js, MongoDB, with hands-on experience developing systems from scratch and maintaining deployed platforms.

Experience

Full Stack Developer (MERN)
Startup Stairs (AVPL International) – Gurugram   Sept 2025 – Present

- Worked on **multiple production applications** across domains including job portals, startup funding platforms, ERP systems, and service/e-commerce platforms.
- Built end-to-end MERN applications from scratch across frontend, backend, and database layers.
- Developed secure and scalable **RESTful APIs** using Node.js and Express.js.
- Designed optimized **MongoDB schemas** for users, roles, attendance, workflows, and transactional data.
- Built responsive, reusable UI components using **React.js and Tailwind CSS**.
- Maintaining and extending an internal ERP used by staff across multiple geographic locations.

Front-End Developer Intern
SPH Aviation (now IQuantra) – (AVPL INTERNATIONAL) – Gurugram   Jun 2025 – Sept 2025

- Developed responsive UI modules for a **role-based ERP system** using React.js.
- Integrated frontend components with REST APIs for dashboards and workflows.
- Independently built a **Node.js + Express.js API** to resolve a delivery blocker.

Key Production Projects

TalentSync – Job Portal Platform (Built from Scratch)
- Built a job portal tailored for **ITI and Diploma candidates**.
- Implemented candidate profiles, job listings, admin controls, and authentication.

Startup Stairs — Seed Funding Platform (Built from Scratch)
- Developed a platform enabling startups to showcase ideas and connect with seed funding opportunities.
- Designed full system architecture and implemented role-based access.

ERP System — Workforce Management
- Maintaining and extending an internal ERP used by staff across multiple locations.
- Implemented geo-tagged attendance with real-time image capture for location verification.

Drone Planet — Services Commerce Platform
- Improved UI/UX and functionality for a drone services and commerce platform.

Skills

MERN Stack: MongoDB, Express.js, React.js, Node.js
Frontend: JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Next.js
Familiar With: AWS, SQL, OOPS, Computer Networks
Developer Tools: Git, GitHub, Agile Methodologies

Education

B.E. in Computer Science Engineering
Chandigarh University — 2024
